EDUCATION

University of South Florida

Aug. 2022 – May 2026

Bachelor of Science in Artificial Intelligence and Business Analytics

Tampa, FL

Bachelor of Science in Econometrics and Quantitative Economics

GPA: 3.98

Relevant Coursework: Python for Business Analytics, Statistical Programming for Business Analytics, Applied Data Science, Data Mining, Big Data for AI and Analytics

TECHNICAL SKILLS

Languages: SQL, Python, R, HTML, C/C++

Libraries: pandas, numpy, scikit-learn, matplotlib, seaborn

Tools: Tableau, Power BI, Power Automate, Visio, Orange Data Mining, Excel (VBA, Pivot Tables, Power Query)

Concepts: Machine Learning, Data Mining, Statistics, Causal Inference, Classification Methods, Data Visualization

Certifications: Google Data Analytics Professional Certificate, USF Muma Citizen Data Science

EXPERIENCE

Business Intelligence Intern

Jun. 2024 – Aug. 2024

Princeton University - Office of Finance and Treasury (Finance Technology Team)

Princeton, NJ

- Accelerated dashboard load speed by 80% by optimizing SQL joins and Tableau row-level security for 7M+ records
- Developed a Power Automate solution that automated the generation and emailing of personalized reports from 10K+ row Excel files, cutting processing time from hours to under 5 minutes
- Designed reusable VBA and Power Query templates to clean and integrate 200+ monthly employee records for internal analytics
- Authored an internal Generative AI guide, empowering 150+ staff to apply AI tools to financial workflows

Export Department Intern

Jun. 2023 – Aug. 2023

Intercontinental Shipping Co., Ltd.

Haiphong, Vietnam

- Reduced clerical errors by 25% by auditing international shipping documents for regulatory compliance
- Collaborated in cross-functional teams with logistics, sales, and client service departments to resolve bottlenecks, increasing deal closure efficiency by 20% and improving operational metrics

PROJECTS

Next Leg | *Postgre SQL, Python, pandas, numpy, scikit-learn*

Jun. 2025 – Aug. 2025

- Built ETL pipeline to load 2.5M+ flight records into PostgreSQL for seasonal travel optimization
- Engineered and tuned machine learning models to predict flight cancellation probability, addressing challenges such as imbalanced datasets for improved predictive power

Apple Quality Classification | *Orange Data Mining*

Apr. 2025 – May 2025

- Trained Decision Tree and Neural Network models on a 4000-record dataset to classify apple quality
- Boosted borderline accuracy by 12% through cross-validation and hyperparameter tuning

Electronics Sales Analysis | *Python, pandas, numpy, scikit-learn, matplotlib*

Oct. 2024 – Nov. 2024

- Analyzed 20K+ sales transactions and identified \$21.5M in revenue from customers aged 35–64
- Built SVC models with up to 87% accuracy for forecasting customer loyalty and optimizing shipping strategy

Hospital Administrator's Database | *Visio, Microsoft SQL Server*

Aug. 2024 – Dec. 2024

- Designed relational database system to manage 10K+ patient records and hospital operations
- Created 5+ SQL reports to track admissions, staff assignments, and treatment plans

LEADERSHIP

Peer Leader

Aug. 2024 – May 2025

Corporate Mentor Program, University of South Florida

Tampa, FL

- Enhanced 12+ first-generation student-mentor relationships through consistent support and check-ins
- Co-led 2+ career events for 120+ students and advised on peer feedback systems to support inclusion
