EDUCATION

University of South Florida

Aug. 2022 – May 2026

Bachelor of Science in Artificial Intelligence and Business Analytics

Tampa, FL

Bachelor of Science in Econometrics and Quantitative Economics

GPA: 3.98

Relevant Coursework: Python for Business Analytics, Statistical Programming for Business Analytics, Applied Data Science, Data Mining, Big Data for AI and Analytics

TECHNICAL SKILLS

Languages: SQL, Python, R, HTML, C/C++

Libraries: pandas, numpy, scikit-learn, matplotlib, seaborn

Analytics Tools: Tableau, Power BI, Power Automate, Visio, Excel

Databases: PostgreSQL, SQL Server, MySQL

Concepts: Machine Learning, Statistical Analysis, A/B Testing, Data Mining, Data Visualization

Certifications: Google Data Analytics Professional Certificate, USF Muma Citizen Data Science

EXPERIENCE

Business Intelligence Intern

Jun. 2024 – Aug. 2024

Princeton University - Office of Finance and Treasury (Finance Technology Team)

Princeton, NJ

- Accelerated dashboard load speed by 80% by optimizing SQL joins and Tableau row-level security for 7M+ records
- Developed Power Automate solution that automated generation and emailing of personalized reports from 10K+ row Excel files, cutting processing time from hours to under 5 minutes
- Designed reusable VBA and Power Query templates to clean and integrate 200+ monthly employee records for internal analytics
- Authored an internal Generative AI guide, empowering 150+ staff to apply AI tools to financial workflows

Export Department Intern

Jun. 2023 – Aug. 2023

Intercontinental Shipping Co., Ltd.

Haiphong, Vietnam

- Reduced clerical errors by 25% by auditing international shipping documents for regulatory compliance
- Collaborated in cross-functional teams with logistics, sales, and client service departments to resolve bottlenecks, increasing deal closure efficiency by 20% and improving operational metrics

PROJECTS

Data Jobs Market Analysis | Python, pandas, Microsoft Excel, Power BI

Jul. 2025 – Aug. 2025

- Processed 12K+ job postings using Python mapping, explode operations, and one-hot encoding to create structured, analysis-ready datasets
- Built Power BI dashboard that uncovered Data Analyst roles as 33.54% of the market and identified SQL and Python as top in-demand skills, driving targeted career strategy

Next Leg | Postgre SQL, Python, pandas, numpy, scikit-learn

Jun. 2025 – Aug. 2025

- Developed ETL pipeline to load 2.5M+ flight records into PostgreSQL for seasonal travel optimization
- Engineered and tuned machine learning models to predict flight cancellation probability, addressing challenges such as imbalanced datasets for improved predictive power

Electronics Sales Analysis | Python, pandas, numpy, scikit-learn, matplotlib

Oct. 2024 – Nov. 2024

- Analyzed 20K+ sales transactions and identified \$21.5M in revenue from customers aged 35–64
- Built SVC models with up to 87% accuracy for forecasting customer loyalty and optimizing shipping strategy

LEADERSHIP

Peer Leader

Aug. 2024 – May 2025

Corporate Mentor Program, University of South Florida

Tampa, FL

- Enhanced 12+ first-generation student-mentor relationships through consistent support and check-ins
- Co-led 2+ career events for 120+ students and advised on peer feedback systems to support inclusion
